SCORING INSTRUCTIONS - Count only YES answers on all Questionnaires

- 1 **SUGGESTIBILITY:** the FIRST 2 questions score 10 points each if answered YES, on both Questionnaires. Each remaining YES scores 5 points.
- 2 **SEXUALITY:** the 1st question ONLY scores 10 points if answered YES, on both Questionnaires. Each remaining YES scores 5 points.
- 3 Total each Questionnaire separately for both the applicable '10' and '5' YES scores.
- 4 Add the totals of both Questionnaires to find the COMBINED Total.
- 5 Go to Chart to find suggestibility, locating Questionnaire 1's Total on the Vertical axis, and the Combined Total on the Horizontal axis.
- 6 Follow chart to where the two Totals INTERSECT to find the client's suggestibility score.

<p>Examples: SUGGESTIBILITY Questionnaires Q-1's total is 70, Q-2's total is 40, so Combined Total = 110 Intersection point on chart is at 64 Therefore, suggestibility is expressed as a 64% PHYSICAL SUGGESTIBLE.</p>	<p>Examples: SEXUALITY Questionnaires Q-1's total is 70, Q-2's total is 40, so Combined Total = 110 Intersection point on chart is at 64 Therefore, suggestibility is expressed as a 64% PHYSICAL SEXUAL.</p>
